About SimplyATX

What we're about

This website serves as a movie and TV show review aggregator, as well as allowing users to leave their own unique feedback for a title using a basic and universal method - human emotion.

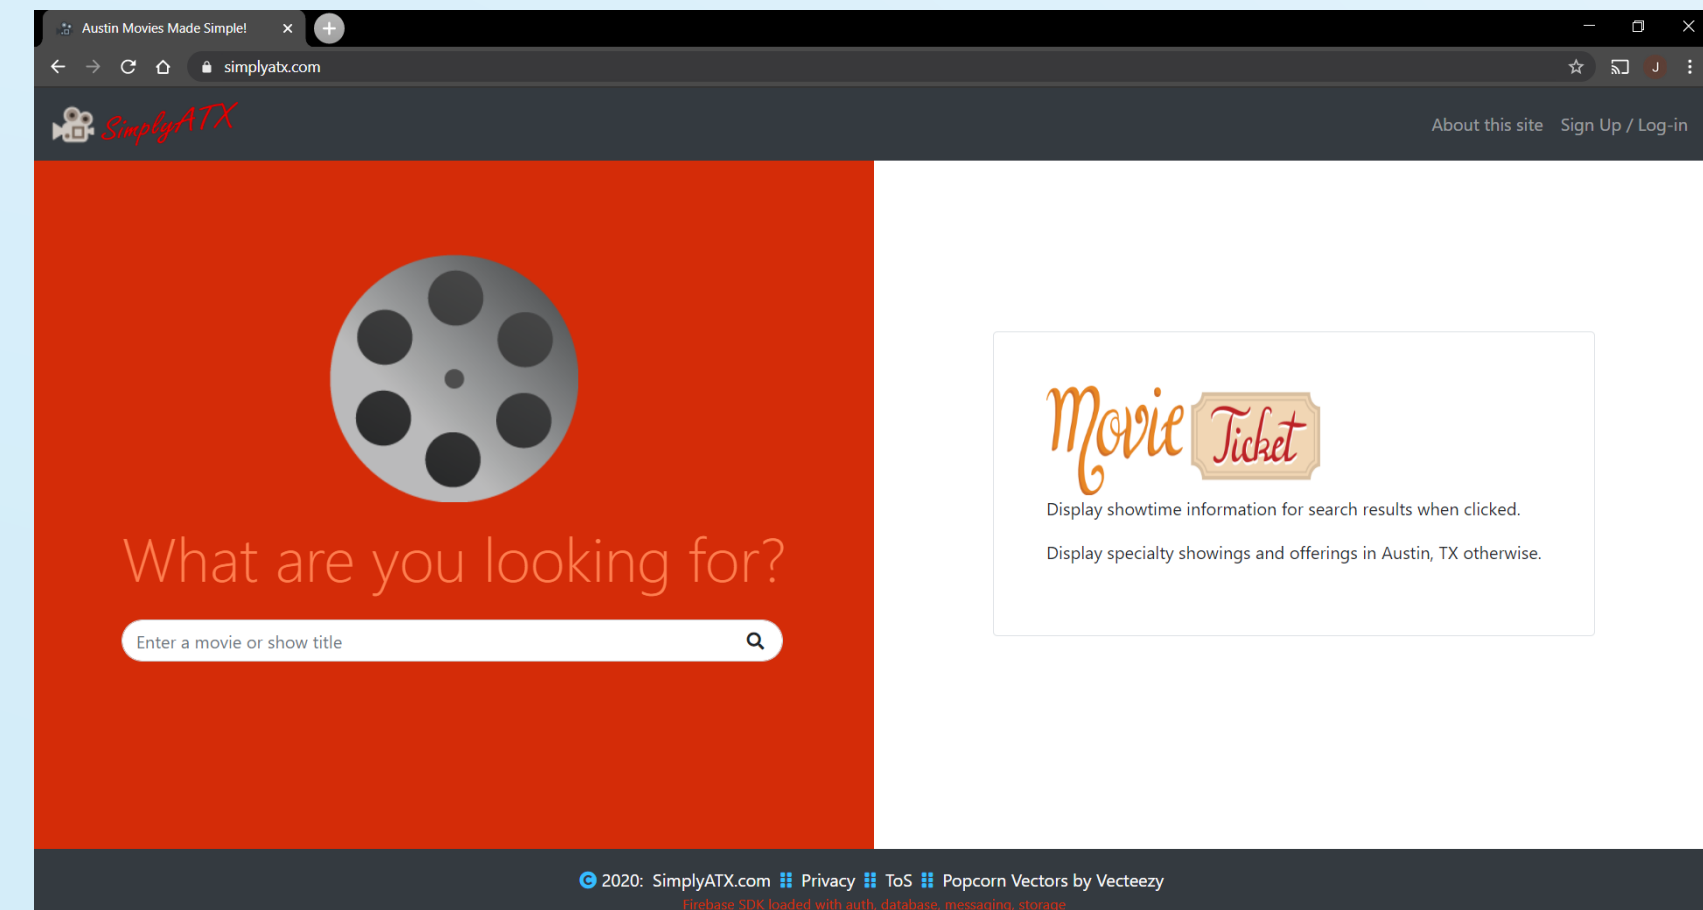

How did a movie make you feel? Was it 3/10 or 4/10? That's not very intuitive right? Seeing reviewers signal that a movie was a snooze-fest and they'd rather watch paint dry, or was so inaccurate it made them so angry (grrrr!) - that might be a tad bit more relatable. That's where we come in with our slightly cheesy but very useful "Emoji Ratings (TM)" system.

For developers

If you find yourself in need of an API for movie and show related information, swing on over to our [Swagger API Documentation!](#) You'll find some useful calls. And if you have questions, don't forget to reach out to us on our [feedback form](#).
